Spectacular display Naga tribal culture

**Tour JTT-NA01:** Kohima and surroundings

**Activities & sights:** festival, tribal villages & culture

**Fixed dates:** Dec. 01 – 07, 2017

The Hornbill festival is an indigenous, exotic, extraordinary event. Organised by the State Directorate of Tourism every year between December 1 and 7 in Kohima, the festival is intended to revive, protect and preserve the richness and uniqueness of the Naga heritage. At this festival, one can see a fascinating melange of Naga cultural displays all at one place. The festival is also a tribute to the hornbill, a bird most admired by the Naga people for its qualities of alertness and grandeur. The awe and admiration for the bird is symbolically displayed in almost all traditional tribal headgears worn during festivities. Local handicrafts and handlooms, ranging from bamboo products to intricately woven traditional garments are on display at the festival, including organic fruits and vegetables. Stalls with an array of tempting Naga dishes help to lure food lovers as well. The festival is organised to showcase the rich cultural mosaic of Nagaland.
